DPHHS Response to Legislative Committee Information Request

Requesting Committee: Children, Families, Health, and Human Services Interim Committee

Committee Meeting Date: March 9, 2026

Requested Information:

- 1. Standing offer for any legislation required for EMS treat-no-transport, community medical program.**

No statutory changes are necessary for the Department to implement emergency medical services (EMS) treat-no-transport as outlined in Montana's Rural Health Transformation Plan. Community Paramedicine was enacted in 2019 through Senate Bill 38 (SB 38). The Department plans to include funding for Medicaid coverage of EMS treat-no-transport in its Medicaid budget request, pending final review and approval.
