- 9 (iii) 6% for the second 5 years; and
- 10 (iv) the board's posted interest rate for the third 5 years, but not to exceed 10% a year.
- 11 (e) (i) The interest rates in subsections (2)(d)(i) and (2)(d)(ii) become effective when the board  
12 receives certification that the required number of jobs has been created or as provided in subsection (2)(e)(ii). If  
13 the board disburses loan proceeds prior to creation of the required jobs, the loan must bear interest at the  
14 board's posted rate.
- 15 (ii) In establishing interest rates under subsections (2)(d)(i) and (2)(d)(ii) for preventing the  
16 elimination of jobs, the board shall require the submission of financial data that allows the board to determine if  
17 the loan and interest rate will in fact prevent the elimination of jobs.
- 18 (f) If a business entitled to the interest rate in subsection (2)(d)(i) or (2)(d)(ii) reduces the number  
19 of required jobs, the board may apply a graduated scale to increase the interest rate, not to exceed the board's  
20 posted rate.
- 21 (g) For purposes of calculating job creation or retention requirements, the board shall use the  
22 state's average weekly wage, as defined in 39-71-116, multiplied by the number of jobs required. This  
23 calculated number is the minimum aggregate salary threshold that is required to be eligible for a reduced  
24 interest rate. If individual jobs created pay less than the state's average weekly wage, the borrower shall create  
25 more jobs to meet the minimum aggregate salary threshold. If fewer jobs are created or retained than required  
26 in subsection (2)(d)(i) or (2)(d)(ii) but aggregate salaries meet the minimum aggregate salary threshold, the  
27 borrower is eligible for the reduced interest rate. A job paying less than the minimum wage, provided for in 39-  
28 3-409, may not be included in the required number of jobs.

1 (h) (i) A participating private financial institution may charge interest in an amount equal to the  
2 national prime interest rate, adjusted on January 1 of each year, but the interest rate may not be less than 6%  
3 or greater than 12%.

4 (ii) At the borrower's discretion, the borrower may request the lead lender to change this prime  
5 rate to an adjustable or fixed rate on terms acceptable to the borrower and lender.

6 (iii) A participating private financial institution, or lead private financial institution if more than one is  
7 participating, may charge a 0.5% annual service fee.

8 (i) The business enterprise may not be charged a loan prepayment penalty.

9 (j) The loan agreement must contain provisions providing for pro rata lien priority and pro rata  
10 liquidation provisions based on the loan percentage of the board and each participating private lender.

11 (3) If a portion of a loan made pursuant to this section is for construction, disbursement of that  
12 portion of the loan must be made based on the percentage of completion to ensure that the construction portion  
13 of the loan is advanced prior to completion of the project.

14 (4) A private financial institution shall participate in a loan made pursuant to this section to the  
15 extent of 85% of its lending limit or 25% of the loan, whichever is less. However, the board's participation in the  
16 loan must be 75% of the loan amount.

17 (5) (a) Except as provided in subsections (5)(b) and (5)(c), a business enterprise receiving a loan  
18 under the provisions of this section may not pay bonuses or dividends to investors until the loan has been paid  
19 off, except that incentives may be paid to employees for achieving performance standards or goals.

20 (b) A business enterprise for the production of ethanol to be used as provided in Title 15, chapter  
21 70, part 5, may pay dividends to investors and bonuses to employees if the business enterprise is current on its  
22 loan payments and has available funds equal to at least 15% of the outstanding principal balance of the loan.

23 (c) A public utility may pay dividends to investors and bonuses to employees if the public utility is  
24 current on its loan payments and has available funds equal to at least 15% of the outstanding principal balance  
25 of the loan.

26 (6) The board may adopt rules that it considers necessary to implement this section."

8           **Section 18.** Section 17-7-130, MCA, is amended to read:

9           **"17-7-130. Budget stabilization reserve fund -- rules for deposits and transfers -- purpose. (1)**

10     There is an account in the state special revenue fund established by 17-2-102 known as the budget  
11     stabilization reserve fund.

12           (2)     The purpose of the budget stabilization reserve fund is to mitigate budget reductions when  
13     there is a revenue shortfall.

14           (3)     Except as provided in subsection (4), by August 15 following the end of each fiscal year, an  
15     amount equal to the balance of unexpended and unencumbered general fund money appropriated in excess of  
16     0.5% of the total general fund money appropriated for that fiscal year must be transferred by the state treasurer  
17     from the general fund to the budget stabilization reserve fund. General fund appropriations that continue from a  
18     fiscal year to the next fiscal year and any general fund appropriations made pursuant to 10-3-310 or 10-3-312  
19     are excluded from the calculation.

20           (4)     The provisions of subsection (3) do not apply in a fiscal year in which reductions required by  
21     17-7-140 occur or if a transfer pursuant to subsection (3) would require reductions pursuant to 17-7-140.

22           (5)     If the transfer provided for in subsection (3) increases the balance in the budget stabilization  
23     reserve fund to exceed 16% of all general revenue appropriations in the second year of the biennium, the  
24     amount in excess is transferred to the capital developments long-range building program account established in  
25     17-7-209.

26           (6)     By August 1 of each year, the department of administration shall certify to the legislative fiscal  
27     analyst and the budget director the following:

28           (a)     the unaudited, unassigned ending fund balance of the general fund for the most recently

1 completed fiscal year; and

2 (b) the amount of unaudited general fund revenue and transfers into the general fund received in  
3 the prior fiscal year recorded when that fiscal year's statewide accounting, budgeting, and human resource  
4 system records are closed. General fund revenue and transfers into the general fund are those recorded in the  
5 statewide accounting, budgeting, and human resource system using generally accepted accounting principles  
6 in accordance with 17-1-102.

7 (7) (a) The state treasurer shall calculate the operating reserve level of general fund balance  
8 defined in 17-7-102(12). The treasurer shall first apply the excess revenue to reach the operating reserve level  
9 general fund balance, if necessary.

10 (b) Once the general fund balance is at the reserve level, 75% of the remaining excess revenue is  
11 transferred as follows:

12 (i) to the budget stabilization reserve fund, until the amount in the fund is equal to 16% of all  
13 general revenue appropriations in the second year of the biennium; then

14 (ii) to the account established in 17-7-209, until the amount in the fund in excess of the amount  
15 needed for appropriations from the capital developments long-range building program account in the capital  
16 projects fund type is equal to 12% of all general revenue appropriations in the second year of the biennium.

17 (c) After the transfers in subsections (7)(b)(i) and (7)(b)(ii) have been made, if the balance of the  
18 budget stabilization reserve fund exceeds an amount equal to 16% of the general revenue appropriations in the  
19 second year of the biennium and the balance of the account established in 17-7-209 in excess of the amount  
20 needed for appropriations from the capital developments long-range building program account in the capital  
21 projects fund type exceeds 12% of all general revenue appropriations in the second year of the biennium, then:

22 (i) 75% of any funds in excess of that amount must be transferred to the ~~account established in~~  
23 ~~17-7-134~~ Montana growth and opportunity trust established in [section 1]; and

24 (ii) 25% of the funds in excess of that amount remain in the general fund.

25 (8) For the purposes of this section, the following definitions apply:

26 (a) "Adjusted compound annual growth rate revenue" means general fund revenue for the fiscal  
27 year prior to the most recently completed fiscal year plus the growth amount.

28 (b) "Excess revenue" means the amount of general fund revenue, including transfers in, for the

1 most recently completed fiscal year minus adjusted compound annual growth rate revenue.

2 (c) "Growth amount" means general fund revenue for the fiscal year prior to the most recently  
3 completed fiscal year multiplied by the growth rate.

4 (d) "Growth rate" means the annual compound growth rate of general fund revenue realized over  
5 the period 12 years prior to the most recently completed fiscal year, including the most recently completed fiscal  
6 year."

8 **Section 19.** Section 17-7-133, MCA, is amended to read:

9 **"17-7-133. (Temporary) Montana local disaster resiliency fund.** (1) ~~There is statutorily~~  
10 ~~appropriated pursuant to 17-7-502 \$4 million per year beginning in the fiscal year beginning July 1, 2023, from~~  
11 ~~the general fund.~~ There is a Montana local disaster resiliency fund in the state special revenue fund in the state  
12 treasury to the credit of the department of military affairs.

13 (2) Eligible uses of the money are:

14 (a) state and local mitigation projects that reduce or eliminate long-term risk to people and property  
15 from future disasters;

16 (b) the nonfederal cost share for personnel performing mitigation program management; and

17 (c) matching funds for grants for the purchase of hazardous material equipment and training to  
18 increase local capacity to respond to incidents as defined in 10-3-1203 involving hazardous material.

19 (3) ~~— The appropriation is void in any year that there is a projected general fund budget deficit~~  
20 ~~pursuant to 17-7-140. (Terminates June 30, 2027—sec. 24, Ch. 722, L. 2023.)"~~

21

22 **Section 20.** Section 17-7-140, MCA, is amended to read:

23 **"17-7-140. Reduction in spending.** (1) (a) As the chief budget officer of the state, the governor shall  
24 ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in  
25 subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the  
26 criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that ensures that  
27 the projected ending general fund balance for the biennium will be at least:

28 (i) 4% of the general revenue appropriations for the second fiscal year of the biennium prior to

1 October of the year preceding a legislative session;

2 (ii) 3% of the general revenue appropriations for the second fiscal year of the biennium in October  
3 of the year preceding a legislative session;

4 (iii) 2% of the general revenue appropriations for the second fiscal year of the biennium in January  
5 of the year in which a legislative session is convened; and

6 (iv) 1% of the general revenue appropriations for the second fiscal year of the biennium in March of  
7 the year in which a legislative session is convened.

8 (b) An agency may not be required to reduce general fund spending for any program, as defined in  
9 each general appropriations act, by more than 10% during a biennium. A governor may not reduce total agency  
10 spending in the biennium by more than 4% of the second year general revenue appropriations for the agency.  
11 Departments or agencies headed by elected officials or the board of regents may not be required to reduce  
12 general fund spending by a percentage greater than the percentage of general fund spending reductions  
13 required for the weighted average of all other executive branch agencies. The legislature may exempt from a  
14 reduction an appropriation item within a program or may direct that the appropriation item may not be reduced  
15 by more than 10%.

16 (c) The governor shall direct agencies to manage their budgets in order to reduce general fund  
17 expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor  
18 shall direct each agency to analyze the nature of each program that receives a general fund appropriation to  
19 determine whether the program is mandatory or permissive and to analyze the impact of the proposed  
20 reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget  
21 and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst.  
22 The report must be submitted in an electronic format. The office of budget and program planning shall review  
23 each agency's analysis, and the budget director shall submit to the governor a copy of the office of budget and  
24 program planning's recommendations for reductions in spending. The budget director shall provide a copy of  
25 the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the  
26 governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations.  
27 The recommendations must be provided in an electronic format. The recommendations must be provided to the  
28 legislature in accordance with 5-11-210. The legislative finance committee shall meet within 20 days of the date

1 that the proposed changes to the recommendations for reductions in spending are provided to the legislative  
2 fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the  
3 proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative  
4 finance committee. The committee may make recommendations concerning the proposed reductions in  
5 spending. The governor shall consider each agency's analysis and the recommendations of the office of budget  
6 and program planning and the legislative finance committee in determining the agency's reduction in spending.  
7 Reductions in spending must be designed to have the least adverse impact on the provision of services  
8 determined to be most integral to the discharge of the agency's statutory responsibilities.

9 (2) Reductions in spending for the following may not be directed by the governor:

- 10 (a) payment of interest and principal on state debt;  
11 (b) the legislative branch;  
12 (c) the judicial branch;  
13 (d) the school BASE funding program, including special education;  
14 (e) salaries of elected officials during their terms of office; and  
15 (f) the Montana school for the deaf and blind.

16 (3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified  
17 by the budget director to the governor, by which the projected ending general fund balance for the biennium is  
18 less than:

- 19 (i) 4% of the general revenue appropriations for the second fiscal year of the biennium prior to  
20 October of the year preceding a legislative session;  
21 (ii) 1.875% in October of the year preceding a legislative session;  
22 (iii) 1.25% in January of the year in which a legislative session is convened; and  
23 (iv) 0.625% in March of the year in which a legislative session is convened.

24 (b) In determining the amount of the projected general fund budget deficit, the budget director shall  
25 take into account revenue, established levels of appropriation, anticipated supplemental appropriations for  
26 school equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount  
27 statutorily appropriated in 10-3-312, and anticipated reversions.

28 (4) If the budget director determines that an amount of actual or projected receipts will result in an

1 amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227,  
2 the budget director shall notify the revenue interim committee in accordance with 5-11-210 of the estimated  
3 amount. Within 20 days of notification, the revenue interim committee shall provide the budget director with any  
4 recommendations concerning the amount. The budget director shall consider any recommendations of the  
5 revenue interim committee prior to certifying a projected general fund budget deficit to the governor.

6 (5) If the budget director certifies a projected general fund budget deficit, the governor may  
7 authorize transfers to the general fund from certain accounts as set forth in subsection ~~(6)~~ (7).

8 (6) If the budget director certifies a projected general fund budget, the governor may reduce the  
9 transfer of volatile revenue to the Montana growth and opportunity trust established in [section 1] by up 40% of  
10 the transfer amount.

11 ~~(6)~~ (7) The governor may authorize transfers from the budget stabilization reserve fund provided for in  
12 17-7-130. The governor may authorize \$3 of transfers from the fund for each \$1 of reductions in spending but  
13 may not authorize a transfer that would cause the balance of the budget stabilization reserve fund to be less  
14 than 6% of all general revenue appropriations in the second year of the biennium."

15

16 **Section 21.** Section 19-3-316, MCA, is amended to read:

17 **"19-3-316. Employer contribution rates.** (1) Each employer shall contribute to the system. Except  
18 as provided in subsection (2), the employer shall pay as employer contributions 6.9% of the compensation paid  
19 to all of the employer's employees plus any additional contribution under subsection (3), except for those  
20 employees properly excluded from membership. Of employer contributions made under this subsection for both  
21 defined benefit plan and defined contribution plan members, a portion must be allocated for educational  
22 programs as provided in 19-3-112. Employer contributions for members under the defined contribution plan  
23 must be allocated as provided in 19-3-2117.

24 (2) Local government and school district employer contributions must be the total employer  
25 contribution rate provided in subsection (1) minus the state contribution rates under 19-3-319.

26 (3) (a) Subject to subsection (4), each employer shall contribute to the system an additional  
27 employer contribution equal to the percentage specified in subsection (3)(b) of the compensation paid to all of  
28 the employer's employees, except for those employees properly excluded from membership.

1 (b) ~~The percentage of compensation to be contributed under subsection (3)(a) is 1.27% for fiscal~~  
 2 ~~year 2014 and increases by 0.1% each fiscal year through fiscal year 2024.~~ For fiscal years beginning after  
 3 June 30, 2024 2025, the percentage of compensation to be contributed under subsection (3)(a) is 2.27%. For  
 4 fiscal years beginning after June 30, 2027, there is a 0.2% increase each fiscal year through the fiscal year  
 5 ending June 30, 2037. For fiscal years beginning after June 30, 2037, the percentage of compensation to be  
 6 contributed under subsection (3)(a) is 4.27%.

7 (4) (a) The board shall annually review the additional employer contribution provided for under  
 8 subsection (3) and recommend adjustments to the legislature as needed to maintain the amortization schedule  
 9 set by the board for payment of the system's unfunded liabilities.

10 (b) The employer contribution required under subsection (3) terminates on January 1 following the  
 11 board's receipt of the system's actuarial valuation if the actuarial valuation determines that terminating the  
 12 additional employer contribution pursuant to this subsection (4)(b) and reducing the employee contribution  
 13 pursuant to 19-3-315(2) would not cause the amortization period to exceed 25 years."  
 14

15 **Section 22.** Section 19-20-609, MCA, is amended to read:

16 **"19-20-609. Employer's supplemental contribution -- actuarially determined adjustments.** (1) (a)

 19 each member employed during the whole or part of the preceding payroll period.

 21 ~~2014 and increases by 0.1% each fiscal year through fiscal year 2024.~~ For fiscal years beginning after June 30,

 24 the fiscal year ending June 30, 2037. For fiscal years beginning after June 30, 2037, the percentage of  
 25 compensation to be contributed under subsection (1)(a) is 4%.

26 (c) The board may decrease the employer's supplemental contribution if:

27 (i) the average funded ratio of the system based on the last three actuarial valuations is equal to  
 28 or greater than 90%;

1 (ii) the period necessary to amortize all liabilities of the system based on the most recent annual  
2 actuarial valuation is less than 15 years; and

3 (iii) the guaranteed annual benefit adjustment has been increased to the maximum allowed under  
4 19-20-719.

5 (d) Following one or more decreases in the supplemental contribution rate pursuant to subsection  
6 (1)(c), the board may increase the supplemental contribution to a rate not to exceed 1% if:

7 (i) the average funded ratio of the system based on the last three annual actuarial valuations is  
8 equal to or less than 80%; and

9 (ii) the period necessary to amortize all liabilities of the system based on the most recent annual  
10 actuarial valuation is greater than 20 years.

11 (2) After the board has actuarially determined the need to impose, increase, or decrease a  
12 supplemental contribution rate under this section, the imposition, increase, or decrease is effective on the first  
13 day of July following the board's determination."
