

UTAH FUNDING OPPORTUNITIES PORTAL

What is the project?

GOPB has developed a [Funding Opportunities Portal](#) to aggregate all state and selected funding opportunities into a centralized and easily searchable database.

Why do we need it?

Customers of the state often face a cumbersome process when seeking funding opportunities, where searches require visits to numerous websites for relevant information. Multiple state agencies and community partners maintain separate spreadsheets that duplicate the compilation of funding opportunities, which creates opportunity for errors and dissemination of outdated information. This project is in response to frequent requests for a unified tool that consolidates data into a single database.

Who is the audience?

The primary target audience for this portal is all customers of the state, including: local governments, residents, and non-profit / for-profit organizations.

Where will it be hosted?

The portal will be hosted on GOPB's website on the [Planning & Funding Resources](#) page.

How will it be maintained?

In collaboration with agencies, the portal will provide a brief description of the funding opportunity, along with important data points, like matching requirements. However, for detailed information about the program, users will be directed to the agency's program website.

Funding Opportunities Portal

**GOVERNOR'S OFFICE OF
Planning & Budget**

This portal provides a brief overview of state and selected federal funding opportunities for Utah communities. Use the filters below to narrow your search. **Before attempting new searches, click "Reset All Filters".** For further instructions on using this portal, click [here](#).
